Turnitin Assignments

5.1 Stepper vs. Servo - 4 points

Explain briefly, how a stepper motor works. What is the function of a stepper motor controller and how does it make controlling the motor easy for the user? Explain the difference between a stepper motor and a (DC) servo motor. What are each motor's pros and cons compared to the other? You can attach pictures to clarify your answer.

Same instructions for the originality check as before.

Maximum 4 points. Maximum length 300 words.
