/ Department of Mechanical Engineering / Sections / Week 1 / 1.1 Mechanics Basics - 14 points

1.1 Mechanics Basics - 14 points

Opened: Tuesday, 15 October 2024, 10:00 AM
Closed: Tuesday, 29 October 2024, 10:00 AM

Most of the required equations can be found from the [Introduction to Mechanics](#) equation collection from the "Other material" page in MyCourses.

There is still some confusion regarding the decimal separator for the answers. The current theory is that it depends on the language of your operating system (comma (,) for Finnish, dot(.) for English. If you have problems, please contact us.

Give your answers with a precision of (at least) two decimal places.

You can try each calculation 5 times; penalty for each incorrect answer is 10%. Give your answer in basic SI-unit, if other unit is not asked.

Attempts allowed: 1
